Dear Resident:

The Town of Guilford is preparing to submit an application for another Community Development housing program. If we are successful, \$250,000 will be available for housing improvements beginning this summer. We are asking residents to complete this pre-application so we can provide the State with a better understanding of the types of needs facing residents and the amount of interest in a grant program. We will contact those residents who complete pre-applications if our application is successful. The types of improvements eligible through a Community Development program include wells, septic systems, heating, roofing, siding, windows, doors or other health and safety or energy efficiency related repairs. Thank you for your interest in this program and please call the Community Development office at **1-800-648-8335** if you have any questions.
